

Introduction to the New VA/DOD Clinical Practice Guideline: The Non-Surgical Management of Hip and Knee Osteoarthritis

Program Description:

This recorded, knowledge-based virtual training will provide important information to members of the health care teams about managing patients who suffer from osteoarthritis (OA). The webinar will assist participants in delivering high-quality, evidence-based care to patients with OA of the hips and knees. It will also assist health care teams to better understand how the Clinical Practice Guideline for Non-Surgical Management of Hip and Knee Osteoarthritis was developed, how to use it and which interventions can provide the most benefit to the Veteran.
